NORD/LB supports refinancing package for London's largest public transport operator Go-Ahead Group

NORD/LB Norddeutsche Landesbank, together with a consortium of banks, is providing a refinancing package for Go-Ahead Group, a leading internationally active transport company headquartered in the United Kingdom. In addition to refinancing existing liabilities, the package includes supplementary investment financing.

With a fleet of more than 6,000 vehicles, Go-Ahead is the largest bus operator in London and plays a key role in the public transport system of the British capital. The company pursues a long-term strategy to decarbonise its transport services. In addition to the United Kingdom, Go-Ahead is also active in Ireland, Scandinavia, Singapore and Australia.

Part of the investment financing provided will be used to expand the electric bus fleet in London and other regions of the United Kingdom. The aim is to gradually transition from conventional to low-emission propulsion technologies. In addition, depots are to be modernised and expanded. These investments will ensure that technical infrastructure is adapted to the requirements of an increasingly electrified vehicle fleet.

By participating in the financing, NORD/LB is supporting the achievement of transport-related climate targets in the United Kingdom and underlining its role as a reliable partner for internationally oriented infrastructure projects with a clear sustainability focus. The Bank has many years of experience in structuring and financing energy and infrastructure projects and supports numerous initiatives that contribute to emissions reduction, the energy transition and the modernisation of transport and energy systems.
