## Your partner throughout the life of the project.

Our teams offer over 20 years of experience in financing and managing projects in the infrastructure sector. We manage a portfolio of European transactions, covering a wide range of sectors including social infrastructure, accommodation and education, blue light, waste/water, street lighting and rolling stock.

// Our Portfolio Management teams operate from Hanover and London and provide expert project finance knowledge as well as language skills to cover different jurisdictions in Europe.

// Working with our colleagues in Agency, we will be one of your main contact points throughout the life of the loan, dealing with day to day business and all credit-related queries.

// While we are responsible for the ongoing monitoring of the loan post Financial Close, we also work alongside our Infrastructure Origination team in the financial structuring phase. This allows us to gain a real understanding of your individual business needs and to offer support and assistance where necessary.
